

Kingsley Ijuo Onah

Abuja, Nigeria | +2347036604122 | onahkingsleyjuo@gmail.com | [https:// kingsley-onah.vercel.app](https://kingsley-onah.vercel.app)

SUMMARY

A highly skilled engineer with experience in backend and frontend development, specializing in creating functional and reusable code, developing RESTful APIs and designing database. I am adept in collaboration, problem-solving, and critical thinking; seeking opportunity to leverage my skills in JavaScript, and frameworks like Nest.js, Node.js, Express.js and Next.js to turn challenging ideas into products. A first class graduate of Electrical and Electronics engineering with vast experience in telecommunications and IT.

SKILLS

Node.js	MySQL	Dockers	Problem Solving
Nest.js	Mongo DB	AWS	Linux
Express.js	Socket.io	Troubleshooting	Microsoft Windows
JavaScript	Next.js	Analytical/Critical Thinking	
Typescript	React.js		
SQL	Git and GitHub	Collaboration	

PROFESSIONAL EXPERIENCE

Backend Developer

August 2022 - Present

Isense Technologies Ltd

- Developed and maintained databases and APIs, ensuring the security and integrity of data
- Integrated user-facing elements with server-side logic through collaboration with front-end developers
- Successfully integrated third-party APIs
- Troubleshoot and debugged issues, enhancing system reliability
- Implemented clean, scalable, and efficient code for optimal performance
- Streamlined server setup and code deployment processes

Operation and Maintenance Centre, Radio Engineer

March 2019 - August 2022

Glo Mobile Ghana Limited

- Managed Radio Access Network (RAN) hardware/software, ensuring optimal performance
- Executed fault, configuration, software/license management, and performance management of RAN equipment
- Provided technical support to BSS field engineers, resolving RAN issues
- Led TDM to IP and cluster migrations, enhancing network efficiency
- Conducted RAN optimization and reconfiguration for improved network performance

Base Station Subsystem/Transmission Engineer

November 2018 - March 2019

Globacom Nigeria Limited

- Provided field technical support, resolving hardware issues
- Installed and optimized microwave communication links between base stations
- Integrated NodeB and BTS sites, improving network connectivity
- Enhanced microwave transmission links, boosting received signal level

Lecturer Assistant (NYSC)

February 2017 - December 2017

University of Uyo

- Assisted a senior lecturer in research and preparation of teaching materials - lecture notes
- Evaluated and recorded undergraduate examination scripts.
- Co-supervised undergraduate examinations in the faculty of engineering.

Network Engineer Intern**October 2014 - March 2015***Directorate of ICT University of Agriculture*

- Offered technical support to network users,
- Resolved LAN switches, computers, and WLAN radios issues
- Installed and configured LANs and WLANs, extending network access

EDUCATION

B.Eng. Electrical/Electronic Engineering**January 2016***University of Agriculture, Makurdi*

First Class Honors (4.66/5.0)

CERTIFICATIONS

Certified Telecoms Network Associate, CTNS**2020**

Teracom

Graduate Member**2022***The Nigeria Society of Engineers***Member****2014***International Association of Engineers*
